4 Magic Trackpad Connection	7

1 Introduction

The ICAROS Guardian can be equipped with connectable devices to add the digital layer to the training. Please note that the CE approval of the ICAROS Guardian relates exclusively to the mechanical ICAROS Guardian device.

As three Apple products are used in combination with the ICAROS Guardian, an "Apple ID" should be created by the operator of the device.

2 Overview Connectable Devices

The ICAROS Guardian can be equipped with the following devices. Follow the ICAROS Guardian installation instructions to attach these devices to the ICAROS Guardian.

3 ICAROS App Download

Before you can download the ICAROS app, your iPad must be activated for the first time. This is because you need an Apple profile to use the iPad. To do this, follow the instructions in the operating manual for your iPad.

Download the official ICAROS app. Follow the instructions for the download process and note the compatibility of the operating system of your mobile device.

- 1. Visit the App Store.
- 2. Search for the "ICAROS App" there and download it.
- 3. Register with the ICAROS app.
- You can use the app free of charge with restrictions, take out a subscription for full access or have access activated by a B2B provider.

Version 2.35

4 iPad Assembly

To use the iPad with the ICAROS Guardian, first complete the necessary initial activation steps, following the official instructions provided.

To use a mobile device, you should attach it to the tablet holder of your ICAROS training device as follows:

1.

Loosen the clamping screw on the underside.

Clamp in the mobile device.

Tighten the clamping screw firmly.

5 Screen Mirroring

To use the TV of the ICAROS Guardian, the screen of the iPad is synchronized wirelessly with the TV of the ICAROS Guardian using the Apple TV system. It is recommended to set up the wireless screen transmission using an Apple TV device.

1.

Therefore, make sure that your iPad, the Apple TV system and the TV of the ICAROS Guardian device are all connected to a suitable power source and switched on.

2.

Connect the Apple TV system to the ICAROS Guardian TV using an HDMI cable. Select the HDMI channel of the Apple TV system.

3.

On the iPad, swipe down from the top right-hand edge of the screen on the Home screen to open the Control Center.

4.

Tap on the "Screen synchronization" icon (it looks like two overlapping rectangles). And Select your Apple TV.

6 Magic Trackpad Connection

With the Magic Trackpad, you can operate the iPad remotely to enable navigation in the app during use. The Magic Trackpad is attached to the cross handrail of the ICAROS Guardian.

1.

Switch on the Magic Trackpad (there is a switch bar on the back of the device that appears green when the trackpad is switched on).
