

Stability training with the ICAROS Guardian - playfully easy, safe, and effective

ICAROS combines effective training with gamification.

Boost your treatment success with the ICAROS Guardian - a digital, fully-equipped balance training system. With the ICAROS Guardian, users can improve their coordination, balance, and reflexes in a fun, safe, and effective way. It is highly suitable for balance and stability training, even for older or physically limited people.

The ICAROS app offers a variety of playful and motivating exergames, such as Biathlon.

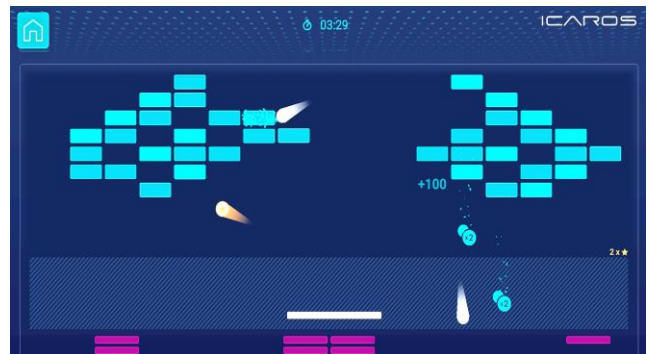

More motivation and success for your patients.

Stability training can be monotonous and progress is often difficult to see. With the ICAROS Guardian, you can increase your patients' motivation. The exercise is versatile, varied, and measurable through specifically designed games.

The ICAROS app includes over 30 games with varying levels of difficulty. Targeted training of the cardiovascular system, balance, or cognitive abilities is implemented in attractive exergames in a playful way.
